

# Push-Pull Identification Chart

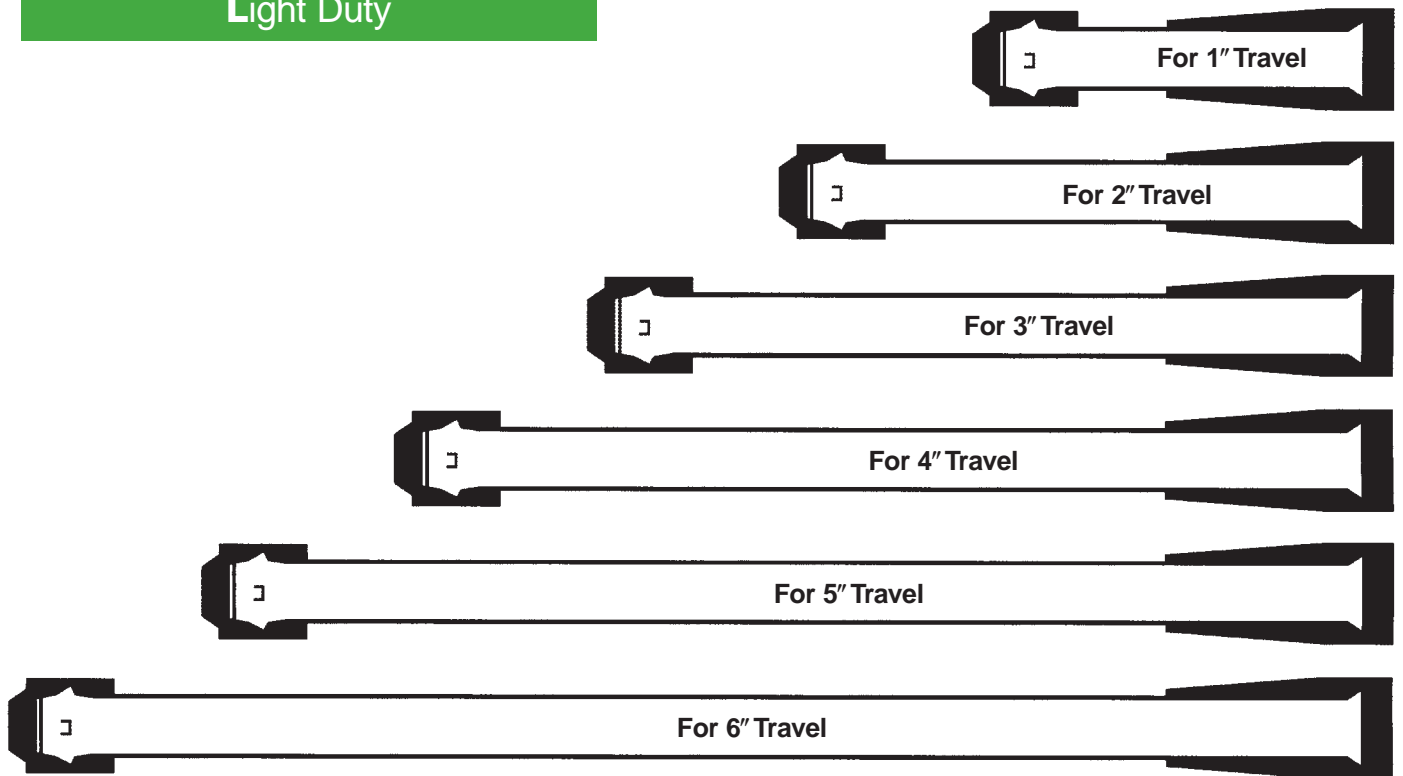

## Visual Comparison Chart for Determining Travel

To determine the "travel" on an existing cable, you can compare the length of the support tubes with the illustrations below and on the next page. Determine the "duty" (size) of the cable by the diameter and threads of the end rods. **V** = 10-32, **L** = 1/4-28, **M** = 5/16-24, **H** = 3/8-24. (Very light duty; Light duty; Medium duty; Heavy duty)

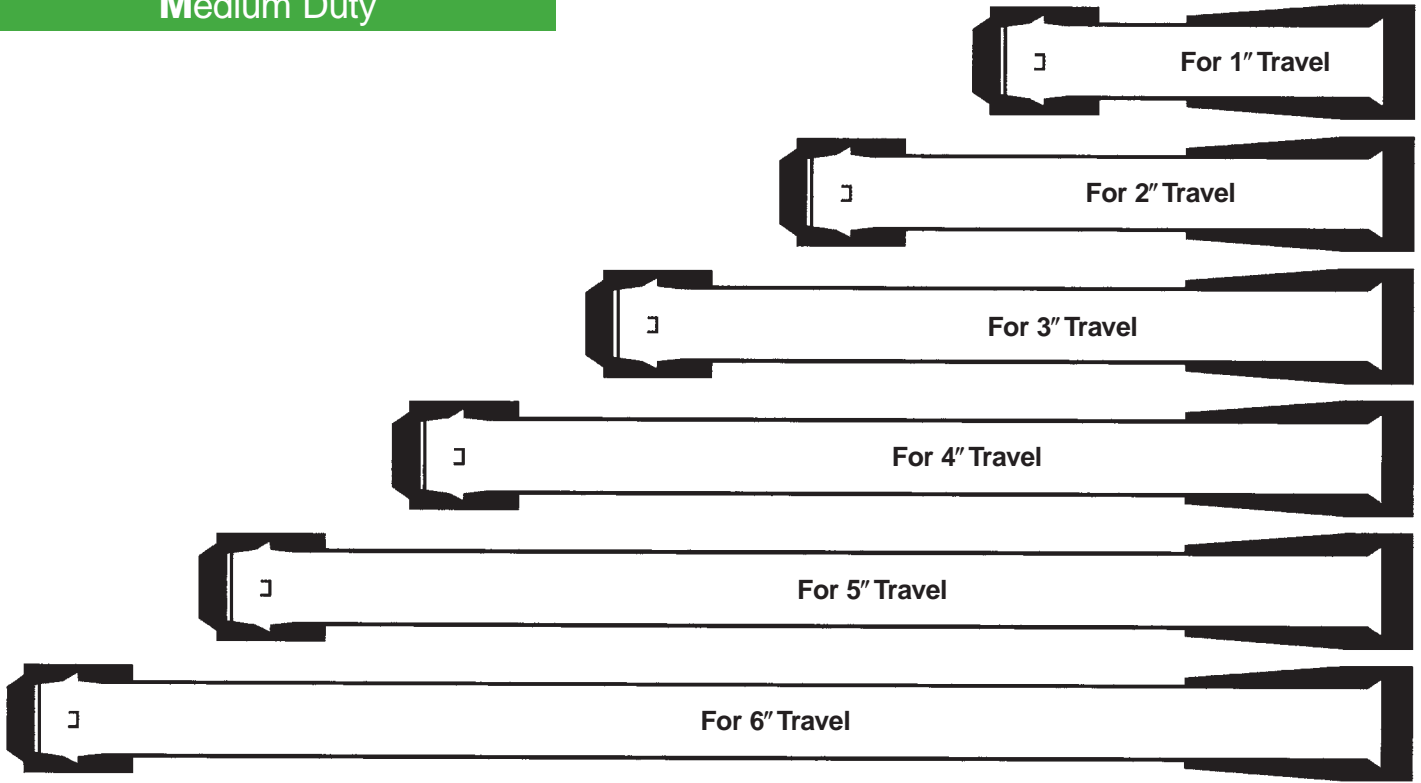

### Very Light Duty

### Light Duty

Medium Duty

Heavy Duty
